

Way of Discipleship

Joining in with the Spirit

How can I grow and change as a disciple
in my everyday living?

Joining in with the Spirit is the third five session course in the “Way of Discipleship”.

It shapes understanding by looking at such questions as:

Why is mission joining in with the Spirit? What is my calling and how do I know it? What is God doing in the world?

It shapes our lived experience by looking at how we can serve God's purposes in every area of life, how we receive the gift of His Spirit in our experience, how we serve together as a church community.

It starts here on:

More about Way of Discipleship

The courses are about developing confident understanding of discipleship, but more importantly shaping our lives around the habits and practices which help us grow.

What is in it?

In each session there is worship, some core content, modelling by other local, ordinary Christians of discipleship in their everyday experience, Scripture study and a chance to reflect on, “What is God saying to me?” and, “How may I respond?”

Who is it for?

It aims to be flexible, and so suitable for many people. It's the next step on from a basic foundation, but it has lots of extra options to stretch those who want to dig deeper.

It's about being transformed – and so may be helpful for lots of people at different stages of their Christian journey.

You don't need lots of knowledge, or to be a “confident Christian”.

You just need a desire to grow..
